To whom it may concern,

I am happy to recommend the services at Sales Talent Agency. Dean Mitchell contacted us and we confirmed his services in recruiting for an Investor Relations Manager.

Once we had agreed terms, Sales Talent Agency presented candidates that fit my requirements in a very short time-frame, I believe it was within a day or so. Dean presented a succinct shortlist of candidates that matched our requirements and were accomplished professionals with great integrity, which is essential in Investor Relations. Throughout the recruitment process there was constant communication and guidance.

When we selected the final candidate to hire, Sales Talent Agency oversaw that final step, ensuring we secured the candidate we wanted with an appropriate compensation package and a quicker start date than anticipated. Dean really demonstrated his expertise in the recruitment process and in the fields of Investor Relations and Mining. Even after the successful hire, Dean has said he will be following up to ensure our new employee is happy as are we.

Anyone looking for a recruiter to solve their staffing needs has made the right decision when they choose Dean at Sales Talent Agency.

Regards,
