To whom it may concern,

Cansel engaged Sales Talent Agency and in particular Dean Mitchell and to find accomplished sales people for multiple roles from intermediate software sales vacancies to strategic professional services sales people.

From our initial meeting to final multiple closes, Sales Talent Agency was great to deal with – very communicative, consultative and clearly subject matter experts in the field of sales recruitment who provided great sales people for our review and consideration. Despite a niche profile and high expectations, we were able to complete a number of hires in BC and Alberta. I would recommend Sales Talent Agency to companies and sales leaders who are looking to hire top sales talent to grow revenue and increase market share in their particular business sector.

Yours Truly,

Mark James, Cansel Sales Manager Autodesk Division Western Canada
