To Whom It May Concern:

This letter serves as a reference on my experience working with Kristen Condon at the Sales Talent Agency and is based on (5) levels of criteria:

- The quality of the candidates we presented
- The speed we operate at
- The customer service we provide
- Our sales/recruitment expertise
- Why Sales Talent Agency was different and better

The quality of the candidates that have been presented to me over the past (3) months have been far above what I have seen from most recruiters. Out of the top sales people that I have hired in the first quarter of the year I have already seen my best producers come from Kristen.

What is more impressive is the speed in which she operates and her quick reply and clear communication as she gets the job done. I never once had an issue with, “waiting on a response” and I think this is very important when dealing with the subtle details of the recruiting process.

The Sales Talent Agency is very professional and good about asking for input and feedback on their candidates, I really get the sense that they care about how my opinion matters when sourcing for candidates.

One reason why I feel that the Sales Talent Agency is different than other Recruitment Agencies that I have worked with in the past is because they make me feel that I am working in a partnership rather than dictatorship. I would recommend Kristen and The Sales Talent Agency to any organization looking to build out their sales efforts.

Best,

Vice President of Sales
